**Tootsie** sweet friendly stray female cat who arrived with her kittens,. She has a slight head tilt but doesn't let it stop her enjoying life.

**Diamond** - black cat with a chequered past as her previous owner had his own troubles. This is the one to choose if you like a girl with attitude !

**Sunrise** Maine Coon girl who was nearly put down due to veterinary needs. Now friendly and confident but has ongoing health issues.

**Mr. Mouse** - elderly stray cat who has health problems but is a true gentle man. Not been here long but is enjoying the equivalent of retiring by the fireside with his pipe and slippers.

**Taxi** Border Collie so that probably tells you a lot about her - fast, fun, highly strung and obsessive. Took desperate last minute phone calls to save her life, and she enjoys every minute of it now.

**Crusoe** - proper Heinz 57 lad who doesn't cope with human expectations put on him. Through a quirk of fate, his mum also lives here and they are very close to each other.

**Maple** Golden Retriever girl who finds life confusing and so can be unpredictable. She was supposed to be a service dog but an untrustworthy person sold her into a situation she couldn't cope with.

**Emily** - Foxhound with the sweetest gentle nature who loves everyone, even her vet who she sees far too often. In spite of her rough past and ongoing health issues she assumes everyone is her friend.
